

Günther Oestmann

***Die Straßburger Münsteruhr: Funktion und Bedeutung
eines Kosmos-Modells des 16. Jahrhunderts***

***The Astronomical Clock of Strasbourg Cathedral:
Function and Significance***

PhD thesis submitted at the University of Hamburg, 1991
Stuttgart 1993; 2nd Berlin/Diepholz 2000

pp. 334, hardcover, 2 b/w illus., 48 b /w plates (2 fold-out)
ISBN 3-928186-12-4 (1st ed.)
ISBN 3-928186-52-8 (2nd ed.)

Contents

Preface	p. 9
Preface to the 2 nd edition	p. 10
Introduction	p. 11
I. The first clock of Strasbourg Cathedral (1352/54) and the project for a reconstruction in the first half of the 16 th century	p. 15
I.1 The first clock of Strasbourg Cathedral	p. 15
I.1.1 The automata of the first clock of Strasbourg Cathedral	p. 21
I.2 The clock on the tower platform of Strasbourg Cathedral	p. 26
I.3 The project for a reconstruction in the first half of the 16 th century	p. 29
II. Renewal and of the project and completion of the second clock (1571/74)	p. 37
II.1 Biographical notes	p. 37
II.1.1 Conrad Dasypodius	p. 37
II.1.2 Isaak and Josias Habrecht	p. 42
II.1.3 Tobias Stimmer	p. 43
II.2 The contract of 1571 and execution of the second clock	p. 44
III. Artistic furnishings (Architecture, paintings and sculptures)	p. 53
III.1 Pictorial representations of the second clock	p. 53
III.2 General Description of the ensemble	p. 54
III.2.1 Basement	p. 54
III.2.2 Central tower	p. 64
III.2.3 Tower for the weight drive	p. 70
III.3 The portrait of Copernicus: Was Conrad Dasypodius an adherent of the new cosmology?	p. 72

IV. The technical components of the clock	p. 85
IV.1 Principal arrangement and function of the automata	p. 85
IV.1.1 Clockwork	p. 87
IV.1.1.1 Going train	p. 87
IV.1.1.2 Train for quarter chiming	p. 88
IV.1.1.3 Train for chiming of the hours	p. 88
IV.1.2 Train for the mechanical cock and carillon	p. 89
IV.1.3 Transmissions to the dials, celestial globe, calendar disc and the indication for the day rulers	p. 92
IV.2 Celestial globe	p. 92
IV.2.1 Excursus: The sphere of Archimedes as a model for the celestial globe of the Strasbourg clock	p. 97
IV.2.2 Gear train of the celestial globe	p. 98
IV.3 The astrolabe dial	p. 101
IV.3.1 The layout of the tympanum and the indications of the astrolabe	p. 101
IV.3.2 Ecliptic and planet's hands	p. 110
IV.3.2.1 Division of the ecliptic ring	p. 111
IV.3.3 Gear train of the astrolabe	p. 113
IV.4 Calendar disc	p. 122
IV.5 The sundials on the gable of the southern transept of Strasbourg Cathedral	p. 123
V. Programmatic meanings of the second clock	p. 127
V.1 Clock construction as part of architectural theory	p. 127
V.1.1 The emblematic painting on the tower for the weight drive	p. 134
V.2 Excursus: On the Late Gothic architecture of the clock case	p. 136
V.3 Heron of Alexandria in the Upper Rhine area: Influences of Alexandrian technology?	p. 138
V.3.1 Excursus: The library of Conrad Dasypodius	p. 138
V.4 The astrologically founded <i>Inventio prima</i> of Dasypodius	p. 149
V.4.1 Ptolemy's <i>Tetrabiblos</i>	p. 150
V.4.2 Dasypodius's commentary to the second chapter of Book III of Ptolemy's <i>Tetrabiblos</i>	p. 151
VI. Conclusion	p. 161
VII. Abbreviations	p. 167
VIII. References	p. 169
VIII.A Manuscript sources	p. 169
VIII.B Reference works, bibliographies, catalogues of manuscripts	p. 179
VIII.B Printed sources, reference works, and secondary literature	p. 182
IX. Appendix	p. 211
IX.1 Jacob Leupold's German translation of Dasypodius's preface to <i>Heron mechanicus</i> , 1725 (Facsimile)	p. 212
IX.2 Description by Johann Philipp Maybaum, 1788 (Transcription)	p. 229

IX.3	Description by Jean-Baptiste Schwilgué, 1836 (Transcription)	p. 233
IX.4	Invoice documents for the first clock of 1352/54 and the project for its renewal in the 16 th century	p. 245
IX.5	Invoice documents for the clock on the tower platform of Strasbourg Cathedral	p. 248
IX.6	Letter from Matthias Bernegger to Daniel Heinsius, 1625 (Transcription)	p. 249
IX.7	Dasypodius's commentary to the 2 nd chapter of Book III of Ptolemy's <i>Tetrabiblos</i> , 1578 (Facsimile)	p. 252
IX.7.1	German translation (Matthias Schramm)	p. 257
IX.8	The lost clock of 1583	p. 261
IX.9	Conrad Dasypodius, <i>Protheoria mathematica</i> , 1593 (Extract)	p. 265
IX.10	Letter from Paul Virdung to Johannes Kepler, 1604 (Extract)	p. 269
IX.11	Proclus Diadochus, The division of mathematics according to Geminus	p. 270
IX.12	The Horoscope of Count Heinrich Rantzau	p. 271
IX.13	Additions	p. 277
IX.14	Plates	p. 279
X.	Additions and corrections	p. 327
XI.	Index of names	p. 332
